

Child Education Review

Foundation Steps - Just Like Me!

CleverClogs.

www.cleverclogsgames.co.uk £34.95

An excellent resource pack, which along with exciting pop up game boards, includes three gorgeous finger puppets!

This pack contains a variety of games accompanied by good guidance information. There is also scope for children to develop their own games with the range of resources included in the pack. A useful addition to the pack is the record sheet for noting children's achievements using the Stepping Stones and Early Learning Goals. We tested the 'Jungle jingle Game' which was brilliant for encouraging collaboration - all of the children wanted to make the animal sounds and sing the catchy rhymes. The children also loved popping out the leaves to see which animal was hiding! We also tried the 'Tell Tale Game' where children tell a story using the puppets This was really popular with the children who, inspired by jungle language from the previous game, were able to come up with creative and expressive stories. This resource would link beautifully to many popular texts such as Rumble in the Jungle or The Tiger Who Came To Tea..

For: a great resource pack for using in many different ways to cater for a wide range of children

Against: a plastic box would be fabulous for long term storage!

Star rating: ★★★★★
